### ***Drawings***

The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on September 4, 2002 have been approved.

The drawings, however, are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 119. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 112***

Claims 4, 5, 25, 27 and 29-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Recitation such as "adjoining end posts" on line 3 of claim 4 render the claims indefinite because it is unclear if the applicant is referring to the upstanding posts set forth above or is attempting to set forth posts in addition to the ones set forth above. Recitations such as "two end posts" on line 4 of claim 5 render the claims indefinite because it is unclear what element of the invention includes the end posts the applicant is referring to. Recitations such as "a surgical instrument" on line 3 of claim 25 render the claims indefinite because it is unclear if the applicant is referring to one of the surgical instruments set forth above or is attempting to set forth another surgical instrument in addition to the ones set forth above. Recitations such as "the elongated

base" on line 1 of claim 27 render the claims indefinite because it is unclear which one of the plurality of bases set forth above the applicant is referring to.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 4, 5 and 24-35 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 12 of U.S. Patent No. 6,367,637 in view of Sharp. discloses a coupling device 30 for connecting two generally rectangular elements to one another.

It would have been obvious to one of ordinary skill in the art to provide a pair of the instrument organizers of claims 1 and 12 with a connector, as taught by Sharp, to more efficiently transport the organizers.
